We understand that all pupils have different abilities and some pupils may struggle with reading and need more specialised texts.

Our Dyslexia-friendly pack contains a selection of books specially produced for students with Dyslexia, and includes those with coloured pages, bold, clear layout, and those broken down by illustrations.

Our HiLo packs are aimed at pupils whose reading level is significantly lower than the average for their age group. These books contain simplified text and a range of presentational features to engage struggling readers, yet still cover topics and themes that are relevant to their interest age.

Many students are perfectly able readers but are very difficult to motivate to pick up a book. Our quick reads pack is targeted at reluctant readers and contains a mixture of short fiction and non-fiction texts that should appeal to their interests. If you have reluctant readers with any specific interests, please let us know and we will offer a bespoke selection.

## FAQs

### How many books will I receive in my pack?

The approximate number of books you will receive is mentioned in the pack's description. We can't tell you exactly how many books will be included because we pick each pack to order to ensure that you receive only the best, most up-to-date books. Obviously, prices vary so we need to keep things flexible to make sure you're getting the best titles to fit your students' needs.

### I can't find a book pack that suits my needs exactly, what can I do?

We offer a bespoke selections service to help solve problems such as these. Just call **0121 666 6646** or email **[schoolsteam@peters.co.uk](mailto:schoolsteam@peters.co.uk)** with a quick outline of your requirements, and we will create a selection for you without delay.

Also, our book packs are always growing, and we would love to hear from you with ideas for new ones! Please let us know if you have an idea for a new pack.

### Can I get a list of the books I will receive in the pack before ordering to avoid duplicating my existing stock?

Unfortunately, due to the nature of how the packs are put together, it's not possible to see a list of the books included before purchasing. If you would like a list made up that you can amend, you can take advantage of our bespoke selections service.

If packs are ordered across more than one age group, there may occasionally be some duplication of titles in low publishing areas, although we obviously strive to avoid this as much as possible.

### How do I arrange for the books in my pack to be jacketed and labelled?

Please select servicing as normal when you place your order. There is a section in the order form where you can select your servicing preferences. Servicing incurs additional cost.

### Will I only receive paperbacks?

We aim to provide the best books currently available for your needs and although we will always choose paperbacks in preference to hardback books, by necessity, some packs will include hardback editions in order to give your students the most appropriate and effective range.

### Can I return books from my book pack?

We have every confidence that you will be delighted with the selection you receive. However, due to the way the packs are administered it is, regrettably, not feasible for us to offer returns or swaps of titles supplied.
